Lifting Objects	Relationships	🗖 Time
Ability to Drive	🔲 Kids	Future Abilities

- 2. How has your health condition affected the boxes marked above? Please give examples for each:
- 3. What would be better/different in your daily life without these symptoms? Please be specific:
- 4. If your symptoms are not treated, are there health conditions you are afraid this might turn into?
 - Heart Disease
 - CancerDiabetes
- ArthritisFibromyalgiaDepression
- Chronic Fatigue
- Need Surgery
- Family Health Problems
- 5. What are you most concerned with regarding your problem?
- 6. Where do you picture yourself being in the next 1-3 years if this problem is not taken care of? Please be specific:
- 7. What do you desire most to get from working with us?
- 8. What would that mean to you?

Neuropathy Sensitivity Scale

The Neuropathy Sensitivity Scale allows for standardized assessment in neuropathy patients. Name: Date:

Instructions: Please circle the number that best describes the question being asked. Remember, a low number means it is less noticeable; a higher number means it is more noticeable. **"Sensation" means whatever you primarily experience: numbness, tingling, burning, etc. **

- Single type of sensation present all the time.
- Single type of sensation only sometimes present

INFORMED CONSENT FOR CARE

Chiropractic care, like all forms of health care while offering considerable benefits may also provide some level of risk. This level of risk is most often very minimal, yet in rare cases, injury has been associated with chiropractic care. The types of complications that have been reported secondary to chiropractic care include: sprain/strain injuries, irritation of a disc condition, and rarely, fractures. One of the rarest complications associated with chiropractic care occurring at a rate between one instance per one million to one per two million cervical spine (neck) adjustments may be a vertebral injury that could lead to a stroke.

Prior to receiving chiropractic care in the chiropractic office, a health history and physical examination will be completed. These procedures are performed to assess your specific conditions, your overall health and in particular your spinal health. These procedures will assist us in determining if chiropractic care is needed, or if any further examinations or studies are needed. In addition, this will help us determine if there is any reason to modify your care or provide you with a referral to another health care provider. All relevant findings will be reported to you along with a care plan prior to beginning care.

- I understand and accept that there are risks associated with chiropractic care, and give consent to the examination and chiropractic care that the doctor deems necessary, including spinal adjustments, as reported following my assessment.
- I authorize and request payment of insurance benefits directly to Shift Health Center. I agree that this authorization will cover all services rendered until I revoke the authorization, I agree that a photocopy of this form may be used in place of the original. All professional services rendered are charged to the practice member. It is customary to pay for services when rendered unless other arrangements have been made in advance. I understand that I am financially responsible for all charges not covered. In the event of any legal action or proceeding relating to the subject matter of this agreement, the non-prevailing party shall reimburse the prevailing party for all reasonable attorney fees and costs resulting therefrom.
